Some agencies use encryption or non-standard radio systems which cannot be monitored on any scanner. Also note that not all scanners can receive every system type. If you are unsure if your scanner works in your area we strongly suggest that you call us or email support@scannermaster.com in advance to be sure that the scanner you have will work in the area you wish to monitor.

Once we receive your scanner please allow 2-4 weeks for processing.

Ship Scanners to:
 Uniden Programming Service
 215 Hopping Brook Road, Suite B
 Holliston, MA 01746

Shipping Note:
 Please only send your TrunkTracker or "DN" scanner - we do not need the antenna, power cable, etc. You do not need to send a HomePatrol scanner in to us unless we are adding a Special Service.

For questions or to order your SD Card visit programming.uniden.com or call 1-888-488-2869.

Generally we program Police/Sheriff/Fire-EMS unless otherwise requested. Trunking Scanners may require a firmware update and may incur an additional fee.

*\$19.95 shipping price is based on shipping by UPS Ground in the contiguous United States only.

[October 2024]

Our phone number is not a support line for Uniden scanners. Calling this line is for ordering programming for Uniden scanners only or to check if your scanner will work for monitoring in your area. Note that not every scanner will work for monitoring the communications of your interest in every area of the USA and Canada.
